## BREEDERS TAKE NOTICE

I will offer the following stallions for public sale at the Fair grounds, season 1910:

**KNOTT MCKINNEY, 14833.**

By McKinney, 2:11, the sire of 22, with records better than 2:10. The greatest sire the world has ever known. He sold for \$50,000 at 17 years of age. Fee \$30.00.

**MONTEREY, 31706.**

Record 2:09 1/4, trotting. He has shown you, if you are from Missouri. He has as much speed as any horse living or dead. Fee \$25.00.

**ADMIRAL EVANS, P-890.**

Record 2:17 1/4, 4th heat. The fastest and gamest 3-year-old pacer on the north Pacific coast last year. (A 2:05 pacer sure) (No hobbies). Fee \$20.00.

Terms cash or bankable note. A few good driving and family horses for sale.

**TOO LATE TO CLASSIFY.**

FURNISHED ROOMS at the new Wilson. Day, week or month. Bell Phone 1544. 4-15-10

## RANDOM REFERENCES

Quarterly Conference—The Weber Stake quarterly conference will convene Sunday at 10 a. m. Some of the general authorities will be present. There will be no conjoint mutual conference in the evening. Regular ward services will be held.

Dr. Powers has opened an office in the Eccles building. Bell telephone 726.

Ralph R. Woolley, hydraulic and mining engineer, accompanied by his wife, is spending a few days in Ogden visiting relatives and friends.

The swiftest of all, B. & G. Butler.

Sunday School Worker—Rev. W. P. Merritt will hold a conference with the Sunday school workers of the city this evening in the First Presbyterian church. Rev. Merritt is western field secretary for the International Sunday School union and, as he is passing through Ogden en route to the Idaho State convention, will spend the evening in Ogden between trains. Anyone having any

## GOOD PASTURES

to Wall avenue. The work was delayed a few days owing to negotiations by the city council regarding the repairing of the asphalt pavement. The removing of the concrete, underneath the asphalt, is quite a difficult task. Blasting will not be permitted on the street and the six-inch layer of concrete has to be taken up in blocks, steel drills being used to cut it loose from its firm hold.

WE HAVE installed a new up-to-date dyeing plant and are now PREPARED TO DYE all classes of garments. COME AND HELP BURY US with work. Ogden Steam Laundry, Dyers and Cleaners.

Trains Delayed.—Union Pacific passenger train No. 3, due at Ogden at 5:45 this morning, did not arrive from the east until noon today owing to heavy snow storms in eastern Wyoming. The coaches and cars composing the train were covered with snow and ice and presented a mid-winter appearance. The fast mail train, due at 11:17 a. m., was delayed hours for the same reason.

Trees Are Planted.—In Salt Lake Arbor Day was observed by state and federal officials who participated in the planting of trees on the Capitol grounds in that city. Thirty trees were set out in honor of the twenty-second celebration of the day.

Late Arrivals.—F. L. Nesbit of San Francisco, F. R. Whitcomb of Salt Lake, Loy S. Cook of Boise and A. S. Hall and wife of Pocatello are among the late arrivals at various local hotels.

O. H. Gunn and F. M. Kinnen, prominent sheepmen of Cheyenne, came in from the east this morning on business.

W. J. Rowling and wife and Charles Monahan of Pocatello came down from the north this morning.

George F. Harter and wife of Rochester, N. Y., and J. E. Thomas and wife of Galveston, Texas, arrived from the east this morning.

George Hulet, a prominent business man of Logan, and W. H. Frazee and Edward Hale, both of Salt Lake, are late arrivals in the city.

Idaho Fruit Destroyed.—R. E. Henderson of Boise City came down from the north this morning and will be in the city for a day or two on business. Mr. Henderson says the recent cold wave and several heavy frosts during the past ten days have seriously injured the prospective fruit crop in Idaho and the damage effects nearly every part of the state where apples and the hardy fruits are grown. As much as four inches of snow fell in the northern part of Idaho during the recent storm and large districts in the vicinity of Pocatello are at present covered with a white blanket.

Classy smoke, Garcia and Vega cigars.

J. W. Cooley of Montello is spending a few days in Ogden.

\$5.50 cash buys a ton of Best Rock Springs on the market. Phone 27, John Farr.

G. W. Brandis and wife of Wells, Nevada, are spending a few days in Ogden.

Sharpen Your Lawn Mower.—That poor old lawn mower, where is it? Dig it out and telephone L. H. Becraft, the Repair Man—we will call for and deliver it.

Mr. and Mrs. R. M. Davidson of Boise, Idaho, are in Ogden on a visit for a few days.

Kodak finishing. Tripp, 340 25th street.

Reopening the San Pedro.—A large number of men employed by the San Pedro road, are making preparations to return to Salt Lake to accept their former positions. The road, it is expected, will open some time during the early part of May, as far south as Caliente. The reopening of the line will be opened in about five months. Reports from the Meadow Valley where the greatest damage was done by the washouts of last February, are to the effect that about 1,500 men are being employed by the Utah Construction company in the rebuilding of about 140 miles of the track which was destroyed by the great floods.

Changes at Depot.—The matter of enlarging and improving the Union Depot hotel and restaurant has been deferred for a time and will probably not be taken up again until it is definitely decided as to the character of the important changes to be made this summer in other departments of the big structure.

Threw a Kiss.—John DeVane last evening threw a kiss at a pretty Ogden Miss and it cost him \$5. John says he would not have done this had it not been that he had a little more of the "O. be joyful," than he needed. At any rate, the pretty lady demurred to the forced courtesy, and a big policeman was called. John was taken to the station and "booked." A friend of his called this morning and secured his release by leaving \$5 with the desk sergeant.

Sheriff From Green River.—Sheriff Matt McCourt of Green River, is visiting friends in the city. He is the guest of Sheriff Barlow Wilson.

Conference in Salt Lake.—F. E. Leavitt, superintendent of the Union Pacific dining car system, is here from Omaha, and in company with Superintendent Fred Gentsch, of the Oregon Short Line dining car and hotel department, left for a business trip to Salt Lake this morning. Mr. Leavitt will return to Omaha Saturday morning.

Storm in Wyoming.—Telegraphic advices received at Superintendent Jeffers' office this morning state that a heavy snow storm swept over Wyoming yesterday afternoon and from six to eight inches of snow fell at various points east and west of Cheyenne. The storm was so severe between Laramie and Cheyenne that the wires were put out of commission for a time, but the weather had cleared up this morning and climatic conditions are all that could be desired.

Double-Tracking.—The Ogden Rapid Transit company put a force of men at work on Twenty-fifth street, at the intersection of Lincoln avenue, removing the asphalt and concrete, in preparing for the new track to be laid

to Wall avenue. The work was delayed a few days owing to negotiations by the city council regarding the repairing of the asphalt pavement.

The removing of the concrete, underneath the asphalt, is quite a difficult task. Blasting will not be permitted on the street and the six-inch layer of concrete has to be taken up in blocks, steel drills being used to cut it loose from its firm hold.

WE HAVE installed a new up-to-date dyeing plant and are now PREPARED TO DYE all classes of garments. COME AND HELP BURY US with work. Ogden Steam Laundry, Dyers and Cleaners.

As much as four inches of snow fell in the northern part of Idaho during the recent storm and large districts in the vicinity of Pocatello are at present covered with a white blanket.

## LEG AMPUTATED IN LOCAL YARDS

George W. Ewald Falls Under a Moving Train Which He Was Attempting to Board and Narrowly Escapes Death—Is An Old Railroad Employee.

George W. Ewald, a veteran railroad man and employed as a switchman with Foreman J. G. Foreman of a Southern Pacific switching crew, at present in charge of a work train in the Ogden yards, fell under a moving train this morning and had his right leg cut off below the knee.

The accident occurred at 7 o'clock in front of the commissary building and was due to the fact that the unfortunate man slipped from a loaded flat car while attempting to crawl on board when the train was in motion. He was dragged from a perilous position by other employees and a few minutes later sent to the General hospital where the lower part of the limb was amputated.

Mr. Ewald resides with his family on Twenty-sixth street, and is an old resident of Ogden. For many years he was employed as a passenger conductor on the Salt Lake division of the Southern Pacific. He resigned that position several years since and re-entered the service of the company as a switchman three years ago. He and his family have the sincere sympathy of local railroad men.

## HEAVY DAMAGE TO THE FRUIT CROP

Loss is Almost Total in Some Sections and Even Where Smudge Pots Are Used Only a Third to Half a Crop Is Saved—More Frost is Predicted.

Reports from all sections of the state are to the effect that heavy damage to the fruit crop has been caused by the frost and cold of the past two days.

In some localities the loss is thought to be almost a total one. In places where smudge pots are in use it is estimated that from one-third to one-half of the crop has been saved.

The fruit men of the country are disconsolate today, the report from different parts of the country being that the fruit crop, including peaches, cherries and apricots suffered great damage last night. It is said by Manager Derrig, of the Pioneer Fruit company, that all over the state the frost committed depredations that will cost the horticulturists a large amount of money.

Where smudges were used in the orchards of Weber county, and other parts, did not reach a point lower than 31 degrees above zero, one point below freezing—but the reports indicate that it was much colder in the surrounding country.

The forecast for tonight again is heavy frost.

The orchards of Brigham City fared better than in other sections. In Davis county the loss is quite heavy.

The crops of Utah and Salt Lake counties, the heavy frost zone of last night—the temperature going as low as 22 degrees above zero outside of the smudged districts—is practically destroyed. From three hundred to five hundred students of the Brigham Young university at Provo went out into the fruit section and aided in operating the smudges.

At Roy ice froze to a thickness of half an inch and the fruit buds and blossoms were frozen stiff. At Pleasant View the thermometer registered 27 degrees above zero in a smudged orchard and it was colder than that in most all the outlying districts of the county. The temperature in Ogden, as registered by the thermometer, did not reach a point lower than 31 degrees above zero, one point below freezing—but the reports indicate that it was much colder in the surrounding country.

The forecast for tonight again is heavy frost.

## ESCAPING "VAG" IS SHOT DOWN

John Ryan, in an Attempt to Break From the Guards at the Cemetery is Wounded in Both Legs—John Hayes Also Tries to Escape, But is Caught.

"I had no idea that an officer would shoot a 'vag' for trying to get away; I always thought the city wanted to get rid of them, but I sure got it this morning," said John Ryan at the police station as Dr. Ries dressed the wounds in the fleshy part of both thighs, caused by a gunshot from the revolver of Guard James Allen.

A few moments after 9 o'clock this morning, while at work in the city cemetery with other prisoners, under Guards Robert Paine and James Allen, John Ryan and John Hayes made a break for liberty. Paine covered the prisoners with his revolver and told them to get together and remain in that position until they were ordered back to work, and in the meantime Allen started in pursuit of Ryan and Hayes.

Ryan had not gone far when Allen dropped him to the ground with a well-aimed shot from his 38-caliber revolver, the ball passing through the right thigh and cutting an ugly wound in the left thigh. Leaving the fellow where he fell, the officer followed Hayes until he cornered him nearby in a clump of trees. Allen leveled his gun at Hayes, with the injunction that if he did not go back to the gang like a man, he would perforate his anatomy with a ball. Hayes threw his hands high in the air and came out of the thicket.

The patrol wagon was brought into use and Ryan was sent to the station for repairs. Dr. Ries attended the man and ordered him sent to the hospital. Miss Ries states that the wounds are not dangerous, the bullet having missed the arteries, and the

muscles of the legs were not badly lacerated.

Ryan is the man who was sentenced to serve 125 days in the city jail a few days ago for vagrancy, the fact of the case being that he acted indecently toward two little girls while they were on their way home from school. Hayes was sentenced to 150 days for being a "secretary vag," or one who associates with women of the underworld. Both men are looked on as reprehensible creatures, and they would try to run away as soon as they were taken out to work.

Mr. Allen says he did not aim to seriously injure the man, but that he could not afford to let him get away. He commanded the man to stop or he would shoot, but, he says, the fellow kept running and "I made good my word."

Officer Paine says that some of the other men in the gang were ready to run when Ryan and Hayes made the attempt to get away, but he suddenly covered them with his revolver and huddled them together.

Hayes says he thinks he has had enough to last him for a while, and is congratulating himself that he has not a few holes in his legs. He is willing now to serve his time.

## ARBOR DAY IS BEING OBSERVED

Arbor day is being observed in the city. Public offices are closed and a good deal of regular business of the city is suspended, the holiday affording an opportunity for tree-planting and pleasant outings in different directions. Government employees, in the forest service, department and in the postoffice, are having a holiday, their time being devoted to the carrying out of a "cleaning-up" program.

The students of the schools are busily engaged planting trees or aiding parents at yard cleaning at home. No set program has been made for them but they all have been instructed to devote at least a part of the day to putting something in the ground that will grow and bring forth fruit, or assist in preparing the soil for some kind of crop or for a flower garden. They will report at the reopening of the schools next Monday morning.

Blanks have been furnished each student and he will be required to make a complete report of the individual effort put forth in the due observance of the day.

The rule of planting is being carried out at the State industrial school and at the school for the Deaf and

## WRIGHTS'

Blind. At the industrial school the forenoon will be devoted to tree-planting and yard-cleaning and in the afternoon the first and second baseball teams of the institution will play a try-out game, preparatory to the match game to be played by the first team with the Weber Academy team at the industrial school grounds tomorrow afternoon.

Notwithstanding the fact that the weather has been rather cool during the day, the care running into the canyon have been filled with pleasure seekers, and hundreds of people have spent the day roaming about the canyon, climbing the steep mountain sides and enjoying the scenic beauty of the great gorge.

Those owning summer homes in the canyon devoted considerable time to removing dead leaves and fallen limbs of trees from their places and leveling their yards for summer use.

This afternoon, at 2 o'clock sharp, a most appreciative and enthusiastic audience greeted the park commissioners, city officials and president of the Weber Club at the City Hall park in honor of the Arbor Day exercises.

Mayor Glasman planted a white ash tree, Judge Heywood, president of the Weber Club, planted a mountain ash; John F. Volker, president of the park commission, planted a European birch; Frank Driggs, superintendent of the State School for the Deaf and Blind, planted a soft maple, and when the fifth tree was presented the City Council was called upon to plant the tree, but not a single member of the city council could be found, notwithstanding the fact that the council had unanimously accepted the invitation from the chairman of the committee on program to be present and assist in the exercises. A gentleman, who, it is said, was an interloper, stepped forward and proceeded to christen the tree. It turned out to be a beautiful European birch. He said:

"Mr. Birch Tree, may you grow and flourish shade for the children unborn, and when the little ones gather beneath your branches, may the foliage from your limbs be more constant in protecting the little ones from the sunbeams than have been the members of the Ogden City Council in performing their duties on this day."

The hit was greatly appreciated and applauded by a most enthusiastic audience.

Each of the gentlemen above named, as he planted the tree set apart for him, made an appropriate speech for the occasion and all were greeted with applause.

## ROOSEVELT IN AFRICA

The greatest of feature pictures, the greatest ever produced by any film manufacturer, was secured at an enormous expense by the co-operation of all the manufacturers licensed by the Motion Picture Patents Co., the negatives having been made by Mr. Cherry Kearton of London, who followed Colonel Roosevelt to Africa and secured his co-operation after weeks of strenuous effort.

The pictures are made in two reels, each 1,000 feet in length, and will be shown at the GLOBE THEATER, this city, for one week, beginning Monday, April 18, 2:30 p. m. To bring these pictures to Ogden and show them on release day costs more than SEVEN times the price of any two reels of our regular run.

Aside from the interest that attaches to these pictures by the personality of Colonel Roosevelt, which was his life and end continually, is the wonder that the fiercest and wildest beasts are actually taken in moving pictures in their native haunts. Many of these were obtained under the greatest difficulties, after hours and even days of waiting, by the camera men concealed in trees, behind bushes or on screens, oftentimes by Mr. Kearton and his guides ran the narrowest risks of their lives, at one time a rhinoceros charged straight for the camera when only the timely discharge of the guard's gun saved them from destruction.

Some of the animals caught by the camera are a herd of giraffes, a rhinoceros mother and baby, a huge lion, which, by the way, took his own picture, as will be explained in the

lecture. A number of hippopotami at play in the Tana river, a herd of gnus and zebras, the giant land turtle which lives to be 1,000 years old, the deadly African spider and the Jackson dancing bird, taken 8,500 feet above sea level, and which took seven days to get from a blind or screen. This is a sight never before witnessed by civilization. The male bird dances while the hen is sitting.

A dance of the native Zulus in Coling Roosevelt's honor, and review of the native amusements in their Luna Park, with the crude Ferris Wheel for a ride, on which the charge is one glass bead, are amusing features in this wonderful picture.

No "Exclusive Right" has been granted by the Motion Picture Patents Co., who control them absolutely, other than that only licensed exhibitors of this company's film are allowed to exhibit them. This schedule includes every house in Ogden showing moving pictures. It is only a question who puts up the price and gets them first.

The pictures to be shown at the GLOBE THEATER next week are now in the office of the Progressive Motion Picture Co. of this city and appear first at the matinee Monday afternoon, April 18th, the same date on which they appear first in the largest cities in the world.

These pictures are made from the original and only negatives in existence. Any licensed house may obtain a copy of these pictures, but the statement that any house in Ogden has the "exclusive right" to run them is untrue.

We have never yet found it necessary to mislead the public in order to draw patronage to our houses—WE HAVE THE ROOSEVELT PICTURES—Other houses may have them, for no "EXCLUSIVE RIGHTS" have been granted.

See them on the big, clear screen at the GLOBE THEATER, where expert operators and the use of the finest machines bring out every detail clear and distinct. A brief description of every scene will be given as it passes. There'll be no increase in price. 10 cents for adults; 5 cents for children under 12 years.

## A HUNTER'S GAME

Every man who likes shooting and has a gun and goes to the Orpheum this week will take down said gun some time today, break it open and take a look through the barrel; also, if he has a dog, the best dog in Michigan, he will look at the canine's teeth and feel him all over, because Frank Stafford and Marie Stone and Stafford's English setter put on a novelty act at that house which makes you smell crushed yellow leaves and hear the whistle of quail way off in the brush, and come up straight with a jerk, as you imagine you hear a partridge whirring in the half-acre branches above. It's a clever bit of vaudeville, to which the man, the woman and the dog contribute their full share. It serves as a means of introducing some clever imitations by Stafford, a good song by Marie Stone and a bit of natural acting in the house tremble in his oxford and wish they were wearing hunting boots.

## BIG HOLE MADE IN THE TREASURY

Washington, April 15.—A big hole in the treasury balance will be made when the officials send out warrants in payment of the Cherokee claim with interest, which has been passed by the court of claims. Principal and interest will amount to between \$4,000,000 and \$5,000,000. Payments will be made from day to day, as the clerical work incidental to cancellation of the claim is stupendous.

There are more than 35,000 beneficiaries, 23,500 of whom live west of the Mississippi river. All of them have more or less Indian blood in their veins.

## CURES ECZEMA, ACNE, TETTER, ETC.

ECZEMA, ACNE, TETTER, SALT RHEUM, etc. are simply the inflammation of skin tissues, caused by humors and acids in the blood. The circulation has become infected with impurities which are being constantly deposited into the pores and glands of the cuticle, and a continual state of inflammation and irritation is thus kept up. Just as long as these humors and acids remain in the circulation the skin affection will continue. The trouble may be temporarily soothed and covered over with external applications, but such treatment does not make the blood any purer, and can therefore be of no permanent benefit. To cure any skin disease it is necessary to purify the blood—remove the cause. S. S. S. Cures ECZEMA, ACNE, TETTER, SALT RHEUM, pimples, eruptions, etc. because it is the greatest of all blood purifiers. It goes into the circulation and drives out every humor, acid or impurity. It cools the feverish blood and allows it to furnish the skin with healthy nourishment, instead of fiery, acrid deposits. S. S. S. is purely vegetable, mild and pleasant in the action, it does not cure skin disease by forcing all the impurity to the surface, but stimulates the excretory members to carry it off through the natural avenues. If you have any skin affection you can not do better than purify your blood with S. S. S. It will assist nature in quickly restoring the smooth, even texture of the cuticle, and the cure will be permanent and lasting. Book on Skin Diseases free to all who write.
